Year 3 remote learning

English:

Recap our learning on prefix and suffix.

Prefixes and suffixes - Year 3 English - BBC Bitesize

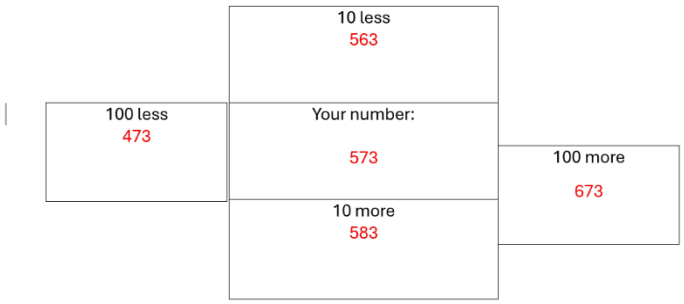
https://www.bbc.co.uk/bitesize/topics/z8m96rd

Now create a poster to teach KS1 what a suffix is and what job they do!
Don't forget to give lots of examples of how a suffix can alter the meaning of the root word. I can't wait to see your creative designs!

Maths:

We have been thinking about number sense. Recap your number bonds to 10, 20 and 100.
www.hitthebutton.co.uk

Then have a go at creating 3 models of your own - just like the one below.



Can you find 10 more than a given number? How could we calculate what is 100 less than a given number? Clue: consider which digit in which column might need to alter! Don't forget to teach your grown-ups what place value means!

Reading:

Enjoy some quiet time reading a book. It could be your reading book, library book, favourite book...Perhaps a magazine/comic, read a bedtime story to your sibling or listen to a traditional tale from a grown-up ... your choice!

Now, generate a book review for your classmates. Would you recommend this book? Why? To who?

Times tables:

Let's play TTRS! Recap: 2, 5, 10. Practice 3 & 4. Challenge: 6 and 8's.

Spelling:

Say, look, cover, write, check this week's spellings. They are glued into your homework books!

Good Luck!

Have a great day Year 3, enjoy the sunshine. Miss Parry
